Subhasree Panda

Computer Science Engineering Student | Data Science

Berhampur, Odisha, India | +91 7849063497 | subhasreepanda494@email.com
LinkedIn: subhasree-panda | GitHub: subhasree-panda

Professional Summary

Computer Science Engineering student specializing in Data Science with a foundation in Python, machine learning, data analytics, and database management. Experienced in developing data-driven applications, analyzing datasets, and building software projects through academic work and internships.

Education

2024–2028 B.Tech, Computer Science Engineering (Data Science) — National Institute of Science and Technology (NIST University), Berhampur, Odisha

Semester CGPAs: 1st: 9.18 | 2nd: 9.59 | 3rd: 9.64 | 4th: 9.41

2022–2024 Higher Secondary (Class XII), SSVM Nilkantha Nagar, Berhampur, Odisha — 84.33%

2021–2022 Secondary (Class X), SSVM Ramahari Nagar, Berhampur, Odisha — 95.66%

Professional Experience

Data Analytics Intern — Skill Development Institute (SDI), Bhubaneswar, Odisha

Jun 2026–Jul 2026

- Worked with Python for data preprocessing, analysis, and visualization.
- Applied data analytics techniques to identify patterns and generate meaningful insights.
- Used Python libraries and visualization techniques to support data-driven decision-making.

Academic Intern — National Institute of Science and Technology (NIST), Berhampur, Odisha

2024

- Strengthened fundamental programming and computer science concepts through practical assignments.
- Developed and tested programs using C, C++, and Python.
- Gained practical exposure to software development practices and problem-solving techniques.

Projects

ESG Carbon Compliance Copilot

Live Demo: esg-carbon-copilot.onrender.com | GitHub: Repository

- Developed a data-driven application to track, analyze, and visualize ESG carbon-emission metrics.
- Used Python and data analytics techniques to process sustainability data and support carbon-footprint tracking.

CityVision AI — Smart Traffic Intelligence & ANPR

Live Demo: CityVision ANPR | GitHub: Repository

- Developed a traffic-intelligence application focused on automatic number plate recognition (ANPR).
- Built a web interface to demonstrate vehicle and number-plate processing.
- Deployed the application on Render and published the source code on GitHub.

Personal Portfolio

GitHub: Repository

- Designed a responsive portfolio website to showcase academic achievements, projects, and professional skills.
- Implemented front-end features using HTML, CSS, and JavaScript.

Technical Skills

Programming: Python, C, C++, Java

Web: HTML, CSS, JavaScript

Database: MySQL

Data Science: Data Analytics, Machine Learning, Data Visualization, Data Structures

Operating Systems: Linux, Ubuntu

Tools: VS Code, Dev-C++, Jupyter Notebook

Certifications & Workshops

Infosys Springboard — Introduction to Data Science; HP LIFE — AI for Business Professionals; Deloitte — Cyber Job Simulation; TCS iON — Presentation Skills and Interview Skills; Cisco — C Programming and C++ Programming Certificates; NIST — C++ Training, Blender and AR Workshop, Docker Workshop.

Core Strengths

Problem Solving, Analytical Thinking, Teamwork, Communication, Quick Learning
